Municipal District Bow Island.

A meeting of the council of the above municipal district was held on September 28th last, the following being present: Reeve, F. J. Henderson; Deputy Reeve, Almon Gray; Councilors McGregor, Hyland and Poole.

A letter was received from the superintendent of the weed and seed branch, Edmonton, stating that the department would be unable to furnish fall rye to farmers.

Mrs. Margaret Wilmot wrote asking that the cutter in front of her house be enlarged. The matter was referred to the councillor for that district.

C. J. Brundale was granted a rebate on his taxes, on the south-west 24-18-18 of \$100.00 for the years 1917 and 1918 if same is paid before December 15th, 1918.

School regulations were granted as follows:

June	\$200.00
Cherry Coulee	200.00
Rosemont	400.00
Bonsmann	150.00
Good Cheer	150.00

The secretary was requested to write the Minister of Municipal Affairs asking for a uniform pound by law.

The secretary was also asked to issue a distress warrant on Mrs. Emma Gray for seed grain loan, and serve same at once.

The secretary in conjunction with Councillor Hyland was further instructed to collect seed grain notes from J. Peairs.

The council then adjourned.

GIVE YOUR COUNTRY A LEG UP--SAVE

Canadian patriotism demands the practice of thrift by all her sons. The men who are holding the lines at home are for the business of the country to go on with little jar to its mechanism. The steady pulling together of all citizens in the production of goods and in the conservation of all field crops marks the thrifty nation. Saving on the part of our citizens is going to be the greatest insurance we will have in Canada against a period of depression after the war. The combined capital of the individuals who make the country will form a fund of sufficient power to drive business along in a most satisfying way in spite of the prevailing hard times of such a period.

The saying man is therefore a real patriot. He has Canada's interests fundamentally at heart. May his tribe increase in these days when wealth is piling up under the spur of war-time efforts. Save because it hits both ways. It is high form of patriotism. And it gives one's country a leg up in a critical time. Put that extra dollar away. The long procession of thirty dollars will make a line that will not waver--Hindenburg or no Hindenburg.

MAIL CHRISTMAS PARCELS BY NOV. 12

Parcels for the soldiers in France should be posted not later than November 12, if it is desired that they reach the front in time for Christmas, according to the advice of the postmaster. Last year many parcels were posted too late and it is desired that they be turned into the post-offices as early as possible in order to prevent congestion and to assure delivery at the holiday time. Parcels for delivery in England should be posted not later than November 23.

System Seed Grain Supply.

Needy Farmers Will Be Able to Get Loans From Banks

Ottawa, Oct. 5.—The entire system of supplying seed grain for needy settlers and collecting therefor has been overhauled, and what is virtually a new system throughout has been put into effect. At the instance of Hon. Arthur Meighen, minister of the interior, a conference was held with the western provincial governments in the city of Regina, and as a result arrangements have been completed for the fair division of responsibilities as between the Dominion and provincial authorities.

In 1914, when seed grain relief was necessary the government made advances directly to the settlers, bought the seed, shipped to internal elevators, where it was cleaned and sacked and reshipped to points of distribution.

To Buy Locally
The cost of handling in consequence added considerably to the price of the seed, owing to present conditions with the prevailing high price of seed, it was felt that the desired result could be effected more economically and more satisfactorily for the settler by a system that would enable him to purchase the seed locally. The Canadian Bankers' Association has agreed to cooperate, and arrangements have been completed with the banks where, by loans can be made to needy settlers on unpatented lands. The rate of interest on these advances will not be more than seven per cent.

How to Do It

A settler needing assistance must apply to the secretary-treasurer of the municipality in which he resides, or, if the district be unorganized, to the provincial officer of the department of municipal affairs. The application having been verified by both the municipal and Dominion authorities, the bank makes the necessary loan, taking the usual seed grain security and a lien upon the unpatented entry. Payments are due on January 1, 1920.

As a result of the policy established, the settler can make his own arrangements in regard to the purchase of seed, although if there is none available locally, the department of agriculture is arranging for shipments to be sold to the farmers at cost.

Bank Guarantee

The government guarantees the bank to the extent of principal and five per cent interest only. Should the bank not collect the obligation this is all it receives. On collections actually made by the banks as government pays a commission of one per cent. The minister is confident that this arrangement will effect an important saving in distribution and collection expenses, and that it will go far towards confining advances to actual needs, and will result as well in a quicker and more businesslike discharge of obligations incurred.

An order-in-council has been passed embodying the above arrangements.

Good Cheer.

The dance given under the auspices of the ladies of the U. F. A., in Mr. Hubbs's new barn, was a financial as well as a social success. Mrs. I. C. Freeman and Mrs. Geo. Scott looked after the collection. The proceeds amounted to \$48.00 which will be used to send Christmas boxes to the boys at the front.

Mr. and Mrs. I. C. Freeman of Winnipeg, in a decorated car were fore-runners in spreading the glad tidings of "Peace" in our midst on Sunday.

J. P. Peairs and family spent Sunday evening with R. A. Salisbury and wife.

Mr. Perry Salisbury is wearing a broad smile these days. A louncing boy arrived at his home last Friday. Perry says this solves the labor question for him in the future.

Mr. Wm. Perry and wife of Burdette, visited O. A. Lindquist and family Sunday.

Mrs. Bert Politt was a caller in this vicinity last Sunday.

Miss Jessie McCallum spent Thanksgiving with Mrs. Bert Politt of the Courtland Hill district.

The dance and turkey raffle at Mr. Mayberry's last Thursday night, was well attended and twenty-two turkeys were disposed of.

Mr. and Mrs. Reginald spent Sunday with Mr. and Mrs. Currie.

Mr. Gordon Lindquist came down from Bardonia to attend the barn dance and spend a few days with his brother.

Tractors Raise British Hopes.

Food Experts See Solution of Problem in Fordson Product

Britain's food problem is being solved by tractors.

This fact is made known in a report received by Henry Ford & Son, Dearborn, from E. W. Allen, director of field service of the British Food Production Department.

As an example, Director Allen shows in his report that 10 Fordson tractors, operated by British soldiers, cultivated and ploughed 648 acres of land at an expense of \$1,189.

The department figures the cost to the average farmer of cultivating and ploughing an acre of land to be \$5. This would make the cost of preparing 648 acres by regular farm labor, \$3,240, showing a saving by the tractor system of \$2,051.

"The whole unit gave practically no trouble during the week," said Director

Before our last Victory Loan financial experts were dubious as to the outlook for Canada. She could not borrow abroad. It was necessary that she have a large available capital to finance credits for British and foreign war orders. Canada was thrown on her own resources and appealed to her citizens.

The remarkable over-subscription of the 1917 Victory Loan completely changed the uncertain outlook which prevailed. It gave a new impetus to agriculture, commerce and prosperity. It invigorated our efforts in the war. It allowed our provincial governments, municipal and other borrowers to finance their requirements at home. In short, it gave another lease of life to the activities of the Dominion.

The Victory Loan of 1918 will accomplish the same purposes. Upon the ready response of the large and small investor, depends the immediate economic future of Canada. Everyone's prosperity is involved.

Prepare to buy continued Prosperity in Victory Bonds.

The man who saves for his country helps himself.

Those who do not fight must save.

Why Canada must borrow money to carry on

Because Canada has put her hand to the plow and will not turn back:—

—our country is in the war on the side of liberty and justice and will stay in it till complete victory is won and the unspeakable Hun is smashed and beaten to the ground;

—a nation at war must make tremendous expenditures in cash to keep up her armies and supply them with munitions, food and clothing;

—Canada must finance many millions of dollars of export trade in food, munitions and supplies which Britain and our allies must have on credit;

—for these purposes Canada must

borrow hundreds of millions of dollars—

And, this money must be borrowed from the people of Canada:—

Therefore, Canada will presently come to her people for a new Victory Loan to carry on.

+ + +

Canadians will loan the money by again buying Victory Bonds.

The national safety, the national honor and the national well-being require that each and every Canadian shall do his duty by lending to the nation every cent he can spare for this purpose.

Be ready when the call comes to see your country through in its great war work

Amiens Rising From the Dead

Historic Service in the Ruined Cathedral—Refugees are Returning

Delivered from the batteries of the Allies, Amiens will rise from the dead. The world must have guessed the extent of the tragedy which befell her in March, when her people—140,000 men, women and children, a quarter of them already refugees from other places—were turned about from the rising and setting of the sun. Amiens died then in a single day, and we who witnessed the scene will never forget that day.

For four and a half months the ghost before the hazy. Grass has grown in her devastated streets, and the little parks have become a wilderness, there are great gaps in her once-vibrant fabric. Blackening the marking the site of shops and dwellings obliterated by the enemy, it is possible to walk for miles up and down the silent, shattered streets without seeing a single human being. Silence and desolation have weighed heavily on the ruins of the town.

Now that the Hun has passed eastward his guns no longer menace Amiens, the light is lifted, and the town will one day live again. This morning I saw a French soldier in the street. It was in the broken cathedral, where a priest was seen in the windowless choir before a wooden altar, served by a wounded French private, while in the adjacent aisle, encircled of debris, a little congregation of returned veterans, in their dingy black, knelt amid the fragments of the masses, joining thankfully and not without tears in the chanting of the doxology.

It was a scene which moved us all. There have been many such scenes, and the emotions and ceremonies of great significance in the history of the world. I have witnessed the funeral of a man who had been a member of the French army, and the funeral of a man who had been a member of the French army, and the funeral of a man who had been a member of the French army.

One aged canon, who had been a member of the French army, and the funeral of a man who had been a member of the French army, and the funeral of a man who had been a member of the French army, and the funeral of a man who had been a member of the French army.

The damage done to Amiens by the German guns is scattered over the town. There appear to have been deliberate attempts to destroy the business quarter. Houses enclosing the little square at the western front of the cathedral have been partially ruined by direct hits.

New "Joan of Arc" Becomes Famous

Believes She Will Die When Mission is Accomplished

"Joan of Arc, they are calling you," she said.

As it is in answer to the words of the popular song, a new Joan of Arc has appeared in France.

She is a young peasant girl, humble, obscure, like her great spiritual prototype. Her name is Claire Berthelot. She is already something of a power in provincial Catholic circles, and she has been called to the war department and has even been recognized by Premier Clemenceau.

Correct style worn by well dressed young men in all localities. Lace boot—medium narrow toe—fine, horn made in black, tan or patent calf. Price, 75c to \$1.00.

Style—Plus Service at a Fair Price

THE style illustrated above is one that is largely preferred by Canadian business men—especially young men. It has the medium low vamp and narrow, somewhat pointed toe which gives the foot a slim and "dainty" appearance without being extreme in style. Those who like this type of shoe will find it thoroughly satisfactory in fitting qualities and a comfortable easy shoe to walk in.

This style can be obtained in several grades of black and tan. The price range—\$7 to \$10—considering the present leather market, is extremely moderate.

Next spring a shoe of the same wearing qualities will cost from ten to twenty per cent more. It would cost more now except for the fact that the resources of this company enable us to cover our needs well in advance.

Exempted Farmers get Extensions.

Must Apply to Registrars and Fill Out
Questionnaire to Be Supplied

A very important announcement affecting farmers exemptions has been issued by the military service branch. It will be remembered that the boards of review during the summer allowed many farmers exemption till Nov. 1, after which date it would be necessary once more to review their cases. Further exemptions to these men will now depend on their answers to questionnaires which will be sent out to each of these men as apply for them. Following is the order:

"All members of class 1 possessing exemption as farmers which is expiring and who wish to remain exempt should communicate with the registrars under the M.S.A. of their respective districts, requesting an extension in time of such exemption. Questionnaires will thereupon be issued to these men by the registrar and they will receive further exemption upon furnishing satisfactory proof that they are contributing sufficiently to the National Food Supply.

"In order to facilitate productive employment during the winter months, men exempted as farmers should apply to the registrars for permits to engage for the winter in some occupation of national interest, such as lumbering, munition work, etc. Such permits will serve to enable exempted farmers to pursue other useful occupations for the months during which farming operations cannot be carried on."

These further exemptions, the Review understands, will be for a period of six months, when it is likely application will again have to be made. The extension of the exemption will in each case depend on whether it is justified by the applicant's production in the past season.

Americans Must Register with Can. Registrars.

Some time ago it was announced by the American consul for this district that Americans within the ages of 19 and 44 both inclusive, must register with the Canadian registrar of the district within which they reside. This announcement caused a great deal of confusion as it was not known what registrar was meant. Now, however, it is explained that the military registrar is the person, which in Alberta means Major J. M. Carson, Calgary.

The following is the announcement: "Male citizens of the United States living in Canada of ages 19 to 44, both inclusive, must register by registered post with the Registrar under the Military Service Act of the district in which they live, during the ten days next following September 28th, 1918; and such citizens of the ages 19, 20 and 21-44, both inclusive, must so register during the ten days next following October 12th, 1918. It must be emphasized that this includes Americans living in Canada of the above ages, married and single, and includes also all those who have secured diploma exemption or have registered with an American consul, or have registered for military service in the United States.

"Registration letters may be handed to local Postmasters for despatch to the proper Registrar, under the Military Service Act."

Saturday last was the last day on which Americans in Canada can register under the United States Selective Service Act, after which they become liable for service under the Canadian Military Service Act.

No Need For Anxiety

The Canadian registrars are now sending out the Canadian governing ment questionnaires for American citizens who have registered with the American consul, but none of the United States government questionnaires have arrived yet. Mr. Carson says, however, that there is no need for American citizens who have registered under the U. S. law to be apprehensive about this, as the U. S. questionnaires will arrive in due time and no one is subject to any penalty until they get the questionnaires.

However, the Canadian government questionnaires must be answered within twenty days after receipt. One of the queries in this questionnaire relates to the number of the local board in the United States with which a person addressed is registered, and some other questions of this nature which cannot be answered until the arrival of the American questionnaires.

Return Questionnaires

For this reason the Canadian questionnaire is to be filled out as fully as possible in regard to this particular question and returned, the American consuls office undertaking to see that the remainder of the draft board information is given on arrival of the American questionnaires.

U. S. INTERESTED IN STRAW GAS SCHEME

The new process of the advisory council for scientific research for the generating of gas from straw has been demonstrated with success by Prof. R. D. McLaughlin of the University of Saskatchewan, at the National Exposition of Chemical Industry held at New York. The new process furnishes a cheap and feasible means for utilizing the 20,000,000 odd tons of straw which yearly goes up in useless smoke in the western provinces. At a cost of \$500 it is estimated a farmer may install a plant where, by a process of destructive distillation, waste straw may be converted into gas for heating, lighting and power purposes.

The sum of \$1,500 has been appropriated by the council for the installation of a demonstration plant on a farm in the vicinity of Saskatoon, and the plant will be in operation. It is hoped, before winter comes, Prof. McLaughlin and Principal Murray, of Saskatchewan University, will be in charge of the demonstration work. Upon the results of these demon-

Acting Deputy Minister,
Department of Municipal Affairs.

There are many people who praise God from whom all blessings flow and then proceed to waste them.

It is for every one of us to say how much patriotic endeavor, how much loyal sacrifice we will make by saving our money by "doing without," so that each day will see a surplus to add to our own and the nation's strength.

after which presentations were made
to each, Lucille receiving a pretty
black leather purse, and Wilfred a
handsome gold wrist watch. A dainty
lunch was then served, after which
the guests departed.

Our local postmaster requests that
the public after getting their mail
will leave the post-office at once. In
view of the danger from influenza this
is a reasonable request and it is to be
hoped the public will respect it.

It is gratifying to learn that the
people of Bow Island are exercising
every precaution against the spread
of disease, and that they are giving
their hearty support to measures un-
derstaken by the Local Board of
Health. Sometimes steps have to be
taken—and taken promptly—by our
bodies which may be regarded as
somewhat arbitrary at the time, but
calm reflection emphasizes their ne-
cessity and after events often promi-
nently mark their importance.

Burdett.

K. Brown received a wire on
Saturday from the military au-
thorities in which "they" regretted
to inform him that his son
736899 Private Edwin Brown
had been officially admitted to
hospital with a gunshot wound
in the ankle. There are many
that will hope the wound is
not serious and that Ed. may
soon be given the opportunity
to return home to receive the
welcome which he so thorough-
ly deserves.

Like the majority of the
schools in the province just
now the one in Burdett has
been closed down for the week
owing to the epidemic. Al-
though as yet the district is
fairly free of the "flu", no one
will condemn the trustees for
having taken precautions.

Wm. Owen has been appointed
police marshal of the town
of Burdett.

J. H. Sandy has let the contract

livery barn which was recently
burnt down. The Stacey Lum-
ber Co. has the work in hand
and commenced operations this
week. It is expected to have
the building completed within
three weeks. The main part
of the structure will measure
30 x 64 with a fourteen foot
lean-to.

The big program of sports
which had been arranged for
Saturday has had to be post-
poned. The date will be an-
nounced in a later issue.

The ladies of the Burdett
Red Cross Society wish to thank
the public for their patronage
last week at their dinners, and
also to thank those who so kind-
ly donated supplies and assisted.

SOCIAL AT BROWNSDALE
Under the auspices of the
Brownsdale Methodist Church
a splendid social was held in
ed of recitations by Rev. F. A.
the schoolhouse on Wed. Oct. 3.
For a week previous, the pastor
Rev. Fred. A. Hutchings was
busy marshalling his forces in-
to three committees, namely,
Advertisement, Entertainment,
and Refreshment, with the re-

freshment, with the result that
150 people spent at least six
hours there, without a single
dull moment. The Ad. commit-
tee had certainly done great
work, a full schoolhouse was
a proof. The entertainment was
a revelation to strangers of
the talent that lies dormant in
Brownsdale and the applause
showed plainly how much it
was appreciated.

Miss Dillman, our new school
teacher has a great musical tal-
ent which was seen at its best
in the way she trained her pu-
pils to sing patriotic songs.

"Billy" Bertram amused the
crowd with his song "The Peg-
legged Polka."

The music was furnished by
Mr. and Mrs. Milton and Miss
Liverud and Messrs Liverud
and Colman.

The literary numbers consist-
ed of recitations by Rev. F. A.
Hutchings, Mrs. McDonald, Mrs.
Owen, Miss Gladys and Jean
Brown and a dialogue entitled
The Census Taker was given in
an able manner by some of the
dramatic artists of the com-
munity.
